

HIMALAYA POLYPLAST INDUSTRY

Defining Success with Flying Colours

Our story begins in 1978 in the heart of North India where a young and passionate team of people started with a small entity to cater to the rising and thriving Footwear and Cable Industry at that time. Carrying on the legacy, we are excited and thrilled to announce our transformation to the new identity with our new entity- [Himalaya Polyplast Industry](#).

With changing times, we also need to re-invent ourselves, this theory helps us to stay ahead all the times from our competition.

We at The HPI will always be committed to the trust that we have developed over the past 4 decades along with the superior quality products and best of service that we have provided to our clientele over the years, we can assure that same will be continued with more passion and dedication.

We deal in a Wide Range of products to cater to various industries related to Plastics and Polymers. Some of our products are as below:

1. Black Masterbatches – PVC, PE, EVA, Nylon, PET, PC, ABS.
2. White Masterbatches – PVC, PE, EVA, PET, PC, ABS.
3. Colour Masterbatches for Injection Moulding and Extrusion.
4. PVC Stabilisers for Opaque and Transparent applications.
5. Optical Brighteners and PCRP.
6. Titanium Dioxide and other Plastic Raw Material.
7. PVC Compounds for Extrusion and Injection Moulding.

We want our valued customers to feel secure through the Quality and viability of our products and we also make sure we are always available to resolve any query to our customers as soon as possible, which has helped us gain a clientele who totally rely on us.

We strongly believe that heart and soul of the company is its creativity and innovation which is to be backed by apt facts and our Research & Development team takes care of this very fact. Constant up-gradation through new and improved technologies aids us in meeting all the stringent international Standards with ease. The raw materials and finished goods used and produced by the company respectively are subjected to the most rigorous tests to determine their physical and Coloristic properties, using the most sophisticated equipment and latest internationally accepted test methods. To give the best product with quality assurance is the principle at HPI and this is the secret of the faith & trust which we have gained from our customers. We are grateful for your continued support and look forward to the same in our future endeavours. For any queries don't hesitate to contact us.
